

**“I heard it
through the
grapevine.**

**There’s a new
accreditation
program
for online
pharmacy.”**

Introducing Pharmacy e-Commerce Protection Accreditation.

Your single solution for total security and compliance.

In the evolving digital world, pharmacies face the challenges of meeting rigorous regulatory standards across multiple platforms—brick-and-mortar, e-commerce (via web and/or mobile app), and digital services. Simplify your compliance and secure your operations with The Compliance Team’s new Pharmacy e-Commerce Protection (e-CP) Accreditation.

The Compliance Team (TCT), a leader in pharmacy accreditation, has drawn from its decades of industry and accreditation expertise to design a total e-commerce accreditation program. Integrating all your regulatory requirements, it covers your physical and digital operations, to protect the integrity and safety of your online pharmacy business.

One accreditation resource ensures you’re compliant across all platforms and regulatory requirements.

Whether this is an add-on program for current TCT pharmacy accredited providers, or a stand-alone program for pharmacies without accreditation, e-CP Accreditation will ensure you meet or exceed industry regulatory compliance across multiple platforms.

Establish credibility and trust with your online customers.

e-CP Accreditation builds credibility and trust not only with your patients but with other healthcare providers, who refer reliable online pharmacies. e-CP Accreditation assures patients and referrals of your:

- Consistent high-quality care and security, whether in-store or online.
- Commitment to privacy and safeguarding patient data.
- Adherence to strict drug quality control guidelines.
- Secure and compliant services across all departments.

Benefits of Pharmacy e-Commerce Protection Accreditation.

One single, comprehensive pharmacy accreditation program:

- Covers all your physical operations and digital regulatory requirements.
- Simplifies the complexities of managing regulatory compliance across multiple platforms.
- Robust security and compliance safeguard your entire business.
- Ensures consistent, high-quality patient care and service across all departments.
- One knowledge source helps you navigate the complexities of federal, state, and industry regulations.
- Easily adaptable to your evolving business and the every-changing healthcare landscape and regulatory requirements.

The Compliance Team Difference

e-CP Accreditation is a three-year accreditation that will help you meet or exceed regulatory quality standards and includes our:

- Plain-language standards, tailored to your existing business model.
- Proprietary, simplified approach, and streamlined accreditation process.
- One-on-one call advisor, educating you every step of the way.
- Educational resources, webinars, checklists.

After successful completion of our accreditation program, we designate you as an Exemplary Provider® — assuring your patients, staff, payers, and community that your facility has met or exceeded the highest quality healthcare delivery and operational standards across multiple platforms.
